

Exquisite Bed

SUPERIOR EDGE TO EDGE SUPPORT

Copper is an excellent thermal conductor that rapidly transfers heat away from the body. Additionally, copper is anti-microbial and is thought to promote health and wellness.

- 1,000 individual pocket springs
- Latex copper infused encapsulated
- Superior edge to edge support
- Climate control
- Body pressure relief
- Non turn

NATURAL COOL LATEX

Pure Natural Latex is naturally anti-microbial and dust mite resistant, making it perfect for allergy sufferers or anyone who needs to breathe fresh clean air while sleeping.

Its breathable qualities allow it to keep cool in the summer and warm in the winter and it is one of the most naturally durable and cushioning materials available in nature.
